

## Keys request to UN and International Community on Humanitarian Situation Regarding Military Coup in Myanmar on 1<sup>st</sup> Feb 2021 (8<sup>th</sup> February 2021)

Since early morning of 1<sup>st</sup> February 2021, the legitimate civilian government's leaders including the State Counsellor Daw Aung San Su Kyi and President U Win Myint and the people's representatives who were officially and democratically elected during November 2020 election, have been detained by the Myanmar Military, taking over the government and declaring that the country will be under state of emergency for one year. The Joint Strategy Team (JST)<sup>1</sup> and the Internally Displaced People from Kachin and Northern Shan States are deeply concerned with these events.

On 2<sup>nd</sup> February 2021, Northern Commander met with religious leaders in Myitkyina and explained their intentions under this coup, and asked them to convey the messages to their respective church members.

The military coup is severely affecting to the IDPs communities in Kachin and Northern Shan states. The military are taking more positions with armed troops and artillery, even in towns; and it has impacted on the transportation and movement of local people including IDPs. The civilian population is very worried, fearing that armed clashes will occur, particularly in Northern Shan State.

Accessing humanitarian assistance has been constrained since 1<sup>st</sup> February and it is a big concern in the current political setting, due to the increasing restrictions on movements, transportation, communications, banking system, etc. In some IDPs camps, the food support has covered only for January and the transportation to provide food particularly to Non-Government Controlled areas is a major concern and challenge. Moreover, IDPs are very confused on their plans of their possible Return and Resettlement and are very worried that they will be intimidated and pushed to return or resettle without any assistance or protection of their rights.
